Lauren Terry Ball

Cults And Criminals Unraveling The Myths Introduction

Cults and Criminals

Beyond the Hype There is likely no term that strikes holy terror in the western mind more than "Satanic Cult!" Most cults are not "Satanic." Most criminals who commit horrific crimes, leaving satanic symbols, often in the victim's blood, at the crime scene are not "Satanists." This book takes you beyond the hype, hyperbole, misinformation, disinformation and urban legends of pop culture and mass media that suggest that all cults, cultic and occultic activities are inextricably intertwined with criminal activity. That is a fatally-flawed assumption. The truth is that most criminals are criminal and most cults are cults, and sometimes their paths cross.

The Vampire in Folklore, History, Literature, Film and Television

This comprehensive bibliography covers writings about vampires and related creatures from the 19th century to the present. More than 6,000 entries document the vampire's penetration of Western culture, from scholarly discourse, to popular culture, politics and cook books. Sections by topic list works covering various aspects, including general sources, folklore and history, vampires in literature, music and art, metaphorical vampires and the contemporary vampire community. Vampires from film and television--from Bela Lugosi's Dracula to Buffy the Vampire Slayer, True Blood and the Twilight Saga--are well represented.

Cults, Myths and Religions

This Is A New Release Of The Original 1912 Edition.

Cults, Myths and Religions

Who or What is Behind the Cattle Mutilations? The cattle mutilation phenomenon is an ongoing mystery that has endured for almost 50 years. What have we learned, if anything, from the countless reports filed? Who or what is behind the death and disfigurement of livestock reported as mutilated around the globe? Are these deaths simply attributable to natural predators and scavengers? Or is the military/government somehow involved; perhaps monitoring "mad cow disease"? Are the deaths the action of ritual "cultists" as police say the evidence would suggest? Is it possible that alien predators are involved, as some researchers and the media have suggested? Are black helicopters or UFOs related to the cattle mutilation phenomenon as many witnesses have claimed? Regardless of who or what is responsible, what are the motivations behind perpetrating what may be the greatest unsolved serial crime spree of all time? Stalking the Herd addresses these questions in depth and also offers an objective look at the history of our venerated relationship with cattle, the first domesticated livestock. Is there a connection between these ritualistic cattle deaths and humankind's ancient practice of animal sacrifice? Why are there no Brahman cattle mutilations in India where cattle are revered to this day? Are aliens gathering genetic material for unknown purposes? What about the thousands of pounds of scientific forensic evidence? Are some hidden sections of the military conducting secret projects that—for some reason known only to them—involve the mutilation of hundreds of

cattle in an area that includes Colorado Springs, the NORAD command base inside Cheyenne Mountain and the strange little town called Dulce on a small Apache Reservation?

Stalking the Herd

The Nazis' use and misuse of Nietzsche is well known. In this pioneering book, Bernice Glatzer Rosenthal excavates the trail of long-observed Nietzschean ideas that took root in late Imperial Russia, intertwining with other elements in the culture to become a vital ingredient of Bolshevism and Stalinism.

New Myth, New World

The House of Crimson & Clover continues in the eighth volume, *The Myths of Midwinter*. Beware the myths of Midwinter. Quillan Sullivan never got over losing his twin brother years ago, but he hasn't had to. Because Quillan can still see and speak with Riley, though no one else can. He believes this gift is an accident until the haughty, vainglorious unrequited love of his life, Estella, returns to town and rips his world apart. Estella loathes Quillan. She always has. But he alone holds the key to her greatest desire, and she'll do anything to reach her aims, despite the dire warnings—and the terrible cost to Quillan. Beyond New Orleans, Finn and Aleksandr are on a mission to rescue Anasofiya and bring her home. Finn tentatively accepts help from Nerys on the condition the Empyrean stop withholding secrets. Nerys keeps her promise until an old companion sends her a series of horrifying visions revealing the latest menace to plague the Deschanel: a necromancer has emerged, and this ominous knowledge has fallen into the wrong hands. Power and desperation weave the Deschanel and Sullivans down a perilous path as an ancient caution emerges. Seduction to sinners. A legacy in splinters. Beware the myths of midwinter. The House of Crimson and Clover Series This is the recommended reading order for the series. Volume I: *The Storm and the Darkness* Volume II: *Shattered* Volume III: *The Illusions of Eventide* Volume IV: *Bound* Volume V: *Midnight Dynasty* Volume VI: *Asunder* Volume VII: *Empire of Shadows* Volume VIII: *Myths of Midwinter* Volume IX: *The Hinterland Veil* Volume X: *The Secrets Amongst the Cypress* Volume XI: *Within the Garden of Twilight* Volume XII: *House of Dusk, House of Dawn* The Saga of Crimson & Clover A sprawling dynasty. An ancient bloodline. A world of magic and mayhem. Welcome to the Saga of Crimson & Clover, where all series within are linked but can be equally enjoyed on their own. For content warnings, please visit sarahmcredit.com.

Myths of Midwinter

"*Thailand Unhinged: Unraveling the Myth of a Thai-Style Democracy*" offers a trenchant analysis of Thai politics and society over the tumultuous years that followed the ouster of former Prime Minister Thaksin Shinawatra. Thailand's ongoing political crisis is explained through the prism of the country's painful post-absolutist history - a history marred by the systematic sabotage of any meaningful democratic development, the routine hijacking of democratic institutions, and the continued suffocation of the Thai people's democratic aspirations orchestrated by an unelected ruling class in an increasingly desperate attempt to hold on to its power. The book includes scathing critiques of both Thaksin's administration as well as the military-backed government that came to power in late 2008, following the week-long siege of the country's busiest airports staged by the "yellow shirts" of the People's Alliance for Democracy. The essays are written in a provocative, confrontational style - making "*Thailand Unhinged*" a decidedly unconventional mix of academic scholarship, literary journalism, and radical pamphleteering. About the Author FEDERICO FERRARA (PhD, Harvard University) works as Assistant Professor of Political Science at the National University of Singapore. He will be joining the City University of Hong Kong's Department of Asian and International Studies in 2010.

Thailand Unhinged

The Manson Family: Inside The Cult And The Helter Skelter Murders is a gripping exploration of one of the

most notorious criminal cults in American history. The book delves into the formation of the Manson Family, led by the charismatic yet delusional Charles Manson, and their disturbing activities and beliefs. It examines the influence Manson had on his followers and the psychological manipulation techniques he employed, ultimately leading to the brutal Tate-LaBianca murders. The arrest, trial, and media frenzy surrounding the case are thoroughly examined, along with the ongoing fascination with Manson and his legacy. The book also delves into unsolved mysteries, life inside the cult, the psychological profiles of Manson and his followers, and the long-lasting impact of the Manson Family on American culture. A thought-provoking and chilling account, this book provides a comprehensive understanding of the Manson Family and their crimes.

The Manson Family: Inside The Cult And The Helter Skelter Murders

The Hindu sacred order is guarded by the very gods who violate it and the demons who oppose it. This book is a who's who of such transgressive figures, both familiar and unfamiliar, showing their place within the Hindu order that they violate. It is also a reflection of the serious scholarly debate over the nature and composition of this Hindu order. The chapters range from pan-Hindu deities such as Bhairava and Virabhadra to guardian gods of specific regions and lineages and of different goddess cults. Chapters cover violent themes in SAaivite hagiography, the position of Brahmans in relation to cultic carnivorousness, guardian heroes in folk epic, the deified dead, the royal mythology of a \"criminal caste,\" and a wide-ranging overview of transgressive sacrality.

Criminal Gods and Demon Devotees

From the #1 New York Times bestselling author of *The Silent Patient* comes a spellbinding tale of psychological suspense, weaving together Greek mythology, murder, and obsession, that further cements “Michaelides as a major player in the field” (Publishers Weekly)--now in mass market. Edward Fosca is a murderer. Of this Mariana is certain. But Fosca is untouchable. A handsome and charismatic Greek tragedy professor at Cambridge University, Fosca is adored by staff and students alike particularly by the members of a secret society of female students known as The Maidens. Mariana Andros is a brilliant but troubled group therapist who becomes fixated on The Maidens when one member, a friend of Mariana’s niece Zoe, is found murdered in Cambridge. Mariana, who was once herself a student at the university, quickly suspects that behind the idyllic beauty of the spires and turrets, and beneath the ancient traditions, lies something sinister. And she becomes convinced that, despite his alibi, Edward Fosca is guilty of the murder. But why would the professor target one of his students? And why does he keep returning to the rites of Persephone, the maiden, and her journey to the underworld? When another body is found, Mariana’s obsession with proving Fosca’s guilt spirals out of control, threatening to destroy her credibility as well as her closest relationships. But Mariana is determined to stop this killer, even if it costs her everything—including her own life.

The Maidens

Exploring how Margaret Atwood’s fiction reimagines the figure of the detective and the nature of crime, Jackie Shead shows how the author radically reworks the crime fiction genre. Shead focuses on *Surfacing*, *Bodily Harm*, *Alias Grace*, *The Blind Assassin*, *Oryx and Crake* and selected short fiction, showing the ways in which Atwood’s protagonists are confronted by their own collusion in hegemonic assumptions and thus are motivated to investigate and expose crimes of gender, class and colonialism. Shead begins with a discussion of how Atwood’s treatment of crime fiction’s generic elements, particularly those of the whodunit, clue puzzle and spy thriller, departs from convention. Through discussion of Atwood’s metafictional strategies, Shead also examines Atwood’s techniques for activating her readers as investigators who are offered an educative process parallel to that experienced by some of the author’s protagonists. This book also marks a significant intervention in an ongoing debate among Atwood critics that pits the author’s postmodernism against her ethical and humanistic concerns.

Margaret Atwood: Crime Fiction Writer

When Joe Leaphorn and Jim Chee, Tony Hillerman's oddly matched tribal police officers, patrol the mesas and canyons of their Navajo reservation, they join a rich tradition of Southwestern detectives. In *Crime Fiction and Film in the Southwest*, a group of literary critics tracks the mystery and crime novel from the Painted Desert to Death Valley and Salt Lake City. In addition, the book includes the first comprehensive bibliography of mysteries set in the Southwest and a chapter on Southwest film noir from Humphrey Bogart's tough hood in *The Petrified Forest* to Russell Crowe's hard-nosed cop in *L.A. Confidential*.

Crime Fiction and Film in the Southwest

The Reception of Northrup Frye takes a thorough accounting of the presence of Frye in existing works and argues against Frye's diminishing status as an important critical voice.

Reception of Northrop Frye

This new book by the well-known anthropologists Jean and John L. Comaroff explores the global preoccupation with criminality in the early twenty-first century, a preoccupation strikingly disproportionate, in most places and for most people, to the risks posed by lawlessness to the conduct of everyday life. Ours in an epoch in which law-making, law-breaking, and law-enforcement are ever more critical registers in which societies construct, contest, and confront truths about themselves, an epoch in which criminology, broadly defined, has displaced sociology as the privileged means by which the social world knows itself. They also argue that as the result of a tectonic shift in the triangulation of capital, the state, and governance, the meanings attached to crime and, with it, the nature of policing, have undergone significant change; also, that there has been a palpable muddying of the lines between legality and illegality, between corruption and conventional business; even between crime-and-policing, which exist, nowadays, in ever greater, hyphenated complicity. Thinking through *Crime and Policing* is, therefore, an excursion into the contemporary Order of Things; or, rather, into the metaphysics of disorder that saturates the late modern world, indeed, has become its leitmotif. It is also a meditation on sovereignty and citizenship, on civility, class, and race, on the law and its transgression, on the political economy of representation.

The Truth about Crime

When a bomb claims the life of John May's detective partner of more than half a century, May becomes convinced that the key to the killer's identity lies in his first case together with his partner.

Full Dark House

In *Mystics and Messiahs*--the first full account of cults and anti-cult scares in American history--Philip Jenkins shows that, contrary to popular belief, cults were by no means an invention of the 1960s. In fact, most of the frightening images and stereotypes surrounding fringe religious movements are traceable to the mid-nineteenth century when Mormons, Freemasons, and even Catholics were denounced for supposed ritualistic violence, fraud, and sexual depravity. But America has also been the home of an often hysterical anti-cult backlash. Jenkins offers an insightful new analysis of why cults arouse such fear and hatred both in the secular world and in mainstream churches, many of which were themselves originally regarded as cults. He argues that an accurate historical perspective is urgently needed if we are to avoid the kind of catastrophic confrontation that occurred in Waco or the ruinous prosecution of imagined Satanic cults that swept the country in the 1980s. Without ignoring genuine instances of aberrant behavior, *Mystics and Messiahs* goes beyond the vast edifice of myth, distortion, and hype to reveal the true characteristics of religious fringe movements and why they inspire such fierce antagonism.

Mystics and Messiahs

"This book has as its subject the manipulation of a reputation." "Its starting point is Charlotte Bronte's attempt to manage her own and her sisters' public image in the face of Victorian prejudice against their passionate novels. Their first biographer, Mrs. Gaskell, transformed their story of literary ambition into one of the great legends of the nineteenth century, a dramatic tale of three lonely sisters playing out their tragic destiny on top of a windswept moor. Lucasta Miller reveals where this image came from and how it took such a hold on the popular imagination." "Since 1857, hardly a year has gone by without some sort of Bronte 'biography' appearing."

The Brontë Myth

Originally built to house the workers of Victorian London, Balaklava Street is now an oasis in the heart of Kentish Town and ripe for gentrification. But then the body of an elderly woman is found at Number 5. Her death would appear to have been peaceful but for the fact that her throat is full of river water. It falls to the Met's Peculiar Crimes Unit, led by London's longest-serving detectives, Arthur Bryant and John May, to search for something resembling a logical solution. Their initial investigations draw a blank and Bryant's attention is diverted into strange and arcane new territory, while May finds himself in hot water when he attempts to save the reputation of an academic whose knowledge of the city's forgotten underground rivers looks set to ruin his career. In the meantime, the new owner of Number 5 is increasingly unsettled by the damp in the basement of her home, the particularly resilient spiders and the ghostly sound of rushing water . . . Pooling their information to investigate hitherto undiscovered secrets of the city, Bryant and May make some sinister connections and realize that, in a London filled with the rich, the poor and the dispossessed, there's still something a desperate individual is willing to kill for - and kill again to protect. With the PCU facing an uncertain future, the death toll mounts and two of British fiction's most enigmatic detectives must face madness, greed and revenge, armed only with their wits, their own idiosyncratic practices and a plentiful supply of boiled sweets, in a wickedly sinuous mystery that goes to the heart of every London home.

The Water Room

"In the Shadow of the Black Serpent" is a gripping thriller that weaves a tale of mystery, ancient lore, and heart-stopping action. Set against the vibrant backdrop of Cairo, Egypt, the novel follows the journey of Sarah Miller, a retired detective from the serene village of Wimbleton Hollow in England. Her peaceful life is disrupted when the past resurfaces, beckoning her to a world brimming with secrets and dangers that stretch back to the dawn of civilization. The heart of the novel lies in the enigmatic symbol of the Black Serpent, an ancient emblem that resurfaces in a series of chilling events spanning the globe. From Tokyo to Berlin, a trail of mysterious murders, each marked by this haunting symbol, draws Sarah back into the world of detective work. Her quest for answers leads her to Cairo's shadowy corners, where history whispers from the walls, and modern-day intrigues simmer beneath the surface. As Sarah delves deeper, she uncovers a conspiracy entwined with Egypt's rich history and myths. The Black Serpent is more than a symbol; it's a harbinger of a ritual steeped in power and dread, threatening to alter the course of history. Sarah's investigation propels her into a labyrinth of political machinations and ancient mysteries, where allies and enemies are indistinguishable. The novel is a masterful blend of historical intrigue and contemporary suspense. The author skilfully navigates the reader through the bustling streets of Cairo, the echoing halls of the Egyptian Museum, and into the heart of an age-old mystery. The narrative is rich with details of Egyptian mythology, artfully intertwining with a modern-day thriller. Sarah Miller emerges as a formidable protagonist – intelligent, resourceful, and driven by a relentless pursuit of the truth. Her journey is one of personal transformation, as she confronts her past, faces her fears, and challenges the forces that seek to use ancient power for their sinister ends. "In the Shadow of the Black Serpent" is an enthralling read for fans of mystery and adventure, offering a perfect blend of historical depth and fast-paced action. It's a story about the resilience of the human spirit and the enduring power of truth, set in a world where the past and present collide with explosive consequences. Join Sarah Miller as she navigates the treacherous waters of a mystery that could change the world as we know it.

In the Shadow of the Black Serpent

For as long as we have sought god, we have found the goddess. Ruling over the imaginations of humankind's earliest agricultural civilizations, she played a critical spiritual role as a keeper of nature's fertile powers and an assurance of the next sustaining harvest. In *The Goddess*, David Leeming and Christopher Fee take us all the way back into prehistory, tracing the goddess across vast spans of time to tell the epic story of the transformation of belief and what it says about who we are. Leeming and Fee use the goddess to gaze into the lives and souls of the people who worshipped her. They chart the development of traditional Western gender roles through an understanding of the transformation of concepts of the Goddess from her earliest roots in India and Iran to her more familiar faces in Ireland and Iceland. They examine the subordination of the goddess to the god as human civilizations became mobile and began to look upon masculine deities for assurances of survival in movement and battle. And they show how, despite this history, the goddess has remained alive in our spiritual imaginations, in figures such as the Christian Virgin Mother and, in contemporary times, the new-age resurrection of figures such as Gaia. *The Goddess* explores this central aspect of ancient spiritual thought as a window into human history and the deepest roots of our beliefs.

The Goddess

This substantial and ambitious dictionary explores the languages and cultures of visual studies. It provides the basis for understanding the foundations and motivations of current theoretical and academic discourse, as well as the different forms of visual culture that have come to organize everyday life. The book is firmly placed in the context of the 'visual turn' in contemporary thought. It has been designed as an interdisciplinary or transdisciplinary introduction to the vocabularies and grammars of visibility that inform thinking in the arts and humanities today. It also offers insight into the philosophical frameworks which underpin the field of visual culture. A central theme that runs throughout the entries is the task of moving away from a narrow understanding of visibility inherited from traditional philosophy toward a richer cultural and multi-sensorial philosophy of concrete experience. The dictionary incorporates intertextual links that encourage readers to explore connections between major themes, theories and key figures in the field. In addition the author's introduction provides a comprehensive and critical introduction which documents the significance of the visual turn in contemporary theory and culture. It is accompanied by an extensive bibliography and further reading list. As both a substantive academic contribution to this growing field and a useful reference tool, this book offers a theoretical introduction to the many languages of visual discourse. It will be essential reading for graduate students and scholars in visual studies, the sociology of visual culture, cultural and media studies, philosophy, art history and theory, design, film and communication studies.

Philosophy Classics

Nigeria and Nigerians have acquired a notorious reputation for involvement in drug-trafficking, fraud, cyber-crime and other types of serious crime. Successful Nigerian criminal networks have a global reach, interacting with their Italian, Latin American and Russian counterparts. Yet in 1944, a British colonial official wrote that 'the number of persistent and professional criminals is not great' in Nigeria and that 'crime as a career has so far made little appeal to the young Nigerian'. This book traces the origins of Nigerian organised crime to the last years of colonial rule, when nationalist politicians acquired power at a regional level. In need of funds for campaigning, they offered government contracts to foreign businesses in return for kickbacks, in a pattern that recurs to this day. Political corruption encouraged a wider disrespect for the law that spread throughout Nigerian society. When the country's oil boom came to an end in the early 1980s, young Nigerian college graduates headed abroad, eager to make money by any means. Nigerian crime went global at the very moment new criminal markets were emerging all over the world.

Dictionary of Visual Discourse

Shows how the image of Cornish wreckers as villains deliberately luring ships on to the rocks is a myth.

This Present Darkness

John Pearson knows more about the Krays than anyone alive. Legend, starring Tom Hardy, was based on his book *The Profession of Violence* and it was Pearson who exposed the Boothby connection in 1994. In 1967 the twins asked Pearson to write their biography. He remained a confidant of the family and the brothers throughout their trial and prison years. Now Pearson revisits the twins' criminal past and lays bare the truth behind the legend. Drawing upon a mass of first-hand interviews and private information he was unable to use while the Krays were still alive, he finally recounts the chilling untold story of the Kray twins. John Pearson is also the author of *All the Money in the World* (previously titled *Painfully Rich*), now a major motion picture directed by Ridley Scott film and starring Michelle Williams, Mark Wahlberg and Christopher Plumber (nominated for the Oscar for Best Supporting Actor).

Cornish Wrecking, 1700-1860

Moving from the golden halls to the depths of the underworld, *The Hurricane Party* is about one man's search for justice for his son in a world on the brink. A place where true love is so strong it can bring about the end of time.

The Cult of Violence

The late Lin Carter was a prolific writer and anthologist of horror and fantasy with more than 80 titles to his credit. This is the first collection of Carter's Mythos tales. It includes his intended novel, \"The Terror Out of Time.\"

The Hurricane Party

The History of East-Central European Eugenics, 1900-1945 redefines the European history of eugenics by exploring the ideological transmission of eugenics internationally and its application locally in East-Central Europe. It includes 100 primary sources translated from the East-Central European languages into English for the first time and key contributions from leading scholars in the field from around Europe. This volume examines the main eugenic organisations, as well as individuals and policies that shaped eugenics in Austria, Poland, the former Czechoslovakia, the former Yugoslavia, Hungary and Romania. It also explores the ways in which ethnic minorities interacted with national and international eugenics discourses to advance their

own aims and ambitions, whilst providing a comparative analysis of the emergence and development of eugenics in East-Central Europe more generally. Complete with a glossary of terms, a list of all eugenic societies and journals from these countries, as well as a comprehensive bibliography, *The History of East-Central European Eugenics, 1900-1945* is a pivotal reference work for students, researchers and academics interested in East-Central Europe and the history of science and national identity in the 20th century.

The Xothic Legend Cycle

Mind Myths shows that science can be entertaining and creative. Addressing various topics, this book counterbalances information derived from the media with a 'scientific view'. It contains contributions from experts around the world.

The History of East-Central European Eugenics, 1900-1945

This extract from the Eerdmans Commentary on the Bible provides Budd's introduction to and concise commentary on Numbers. The Eerdmans Commentary on the Bible presents, in nontechnical language, the best of modern scholarship on each book of the Bible, including the Apocrypha. Reader-friendly commentary complements succinct summaries of each section of the text and will be valuable to scholars, students, and general readers. Rather than attempt a verse-by-verse analysis, these volumes work from larger sense units, highlighting the place of each passage within the overarching biblical story. Commentators focus on the genre of each text—parable, prophetic oracle, legal code, and so on—interpreting within the historical and literary context. The volumes also address major issues within each biblical book—including the range of possible interpretations—and refer readers to the best resources for further discussions.

AARP, Art and Archaeology Research Papers

A scholar explores the ideas within *The Lord of the Rings* and the world created by J. R. R. Tolkien: "A most valuable and timely book" (Ursula K. Le Guin, *Los Angeles Times*—bestselling author of *Changing Planes*). What are millions of readers all over the world getting out of reading the *Lord of the Rings* trilogy? *Defending Middle-earth* argues, in part, that the appeal for fans goes far deeper than just quests and magic rings and hobbits. In fact, through this epic, Tolkien found a way to provide something close to spirit in a secular age. This thoughtful book focuses on three main aspects of Tolkien's fiction: the social and political structure of Middle-earth and how the varying cultures within it find common cause in the face of a shared threat; the nature and ecology of Middle-earth and how what we think of as the natural world joins the battle against mindless, mechanized destruction; and the spirituality and ethics of Middle-earth—for which the author provides a particularly insightful and resonant examination. Includes a new afterword

Mind Myths

The book presents a complete edition of the texts, their translation and some fundamental keys for their interpretation, in an attempt at updating our current knowledge on Orphic ideas about the soul and the Afterlife stated in those texts

Eerdmans Commentary on the Bible: Numbers

Details the evolution of Sovietism over seventy-four years from its origins to its end in 1991.

Defending Middle-Earth

"If psychoanalysis is the return of repressed antiquity, distorted to be sure by modern desire, yet still bearing the telltale traces of the ancient archive, then would not our growing distance from the archive of antiquity

also imply that we are in the process of losing our grip on psychoanalysis itself, as Freud conceived it?"-- from Chapter 1As he developed his striking new science of the mind, Sigmund Freud had frequent recourse to ancient culture and the historical disciplines that draw on it. *A Compulsion for Antiquity* fully explores how Freud appropriated figures and themes from classical mythology and how the theory and practice of psychoanalysis paralleled contemporary developments in historiography, archaeology, philology, and the history of religions. Drawing extensively from Freud's private correspondence and other notes and documents, Richard H. Armstrong touches on Freud's indebtedness to Sophocles and the Oedipus complex, his interest in Moses and the Jewish religion, and his travels to Athens and Rome. Armstrong shows how Freud turned to the ancient world to deal with the challenges posed by his own scientific ambitions and how these lessons influenced the way he handled psychic "evidence" and formulated the universal application of what were initially isolated clinical truths. Freud's narrative reconstructions of the past also related to his sense of Jewishness, linking the historical trajectory of psychoanalysis with contemporary central European Jewish culture. Ranging across the breadth of Freud's work, *A Compulsion for Antiquity* offers fresh insights into the roots of psychoanalysis and fin de siècle European culture, and makes an important contribution to the burgeoning discipline of mnemohistory.

Instructions for the Netherworld

In *Connections and Influence in the Russian and American Short Story*, editors Robert C. Hauhart and Jeff Birkenstein have assembled a collection of eighteen original essays written by literary critics from around the globe. Collectively, these critics argue that the reciprocal influence between Russian and American writers is integral to the development of the short story in each country as well as vital to the global status the contemporary short story has attained. This collection provides original analyses of both well-known Russian and American stories as well as some that might be more unfamiliar. Each essay is purposely crafted to display an appreciation of the techniques, subject matter, themes, and approaches that both Russian and American short story writers explored across borders and time. Stories by Gogol, Dostoevsky, Turgenev, Chekhov, and Krzhizhanovsky as well as short stories by Washington Irving, Faulkner, Langston Hughes, Richard Wright, Ursula Le Guin, Raymond Carver, and Joyce Carol Oates populate this essential, multivalent collection. Perhaps more important now than at any time since the end of the Cold War, these essays will remind readers how much Russian and American culture share, as well as the extent to which their respective literatures are deeply intertwined.

The Soviet Tragedy

This is a print on demand edition of a hard to find publication. Examines terrorists' involvement in a variety of crimes ranging from motor vehicle violations, immigration fraud, and mfg. illegal firearms to counterfeiting, armed bank robbery, and smuggling weapons of mass destruction. There are 3 parts: (1) Compares the criminality of internat. jihad groups with domestic right-wing groups. (2) Six case studies of crimes includes trial transcripts, official reports, previous scholarship, and interviews with law enforce. officials and former terrorists are used to explore skills that made crimes possible; or events and lack of skill that the prevented crimes. Includes brief bio. of the terrorists along with descriptions of their org., strategies, and plots. (3) Analysis of the themes in closing arguments of the transcripts in Part 2. Illus.
