Audi 2.7t speed sensor replacement (S4, A6, Allroad) - Audi 2.7t speed sensor replacement (S4, A6, Allroad) by Rolling In Boost 40,004 views 7 years ago 6 minutes, 38 seconds - This is a very common and unpredictable issue faced with Audis and VWs where your car has been running fine, but when you ... remove the white shield

holding all the wires of the bundle close to the firewall

remove the 10 millimeter bolt

take the heat shield from the old sensor

drop the sensor from the top

finished installing the sensors

tightening it completely with the ten millimeter wrench

Audi B6: 1.8T Crank Sensor / Engine Speed Sensor replacement - Audi B6: 1.8T Crank Sensor / Engine Speed Sensor replacement by Thomas EXOVCDs 141,031 views 8 years ago 8 minutes, 42 seconds - Thomas P.O. Box 83041 4827 Kingsway Burnaby, BC V5H 0A4 Canada EXOVCDs Swag: <http://1060461.spreadshirt.ca/> Rate, ...

Sorry... coolant reservoir has already been moved aside.

Locate the mounting bolt with a mirror and use a 10mm socket to remove it...

The sensor should just wiggle out of the engine block, but may need to be pried out with some help...

Use a screwdriver or a small pry bar to wedge between the engine block and the sensor for added force.

Disconnect the harness plug...

Disconnect the harness plug...

Cut the sensor wires, instead of cutting the zip ties that hold it into place...

Now you can pull the remaining wiring through the stock zip ties...

Clean the mounting hole \u0026 surface of the engine block...

If you don't have a wire brush, you can use some sandpaper. If the surface already looks clean enough, you

can leave it as is.

If the sensor does not sit correctly, it can affect signal performance and possibly create oil leaks.

Insert the new sensor and align the mounting hole...

Use a mirror to help see... (rotate the sensor until the holes line-up)

Hardest part is finding the right angle that will get the bolt started. Don't force it into the hole... you do NOT want it to cross thread!

Secure the sensor wiring to the engine at its new locations...

Reconnect the coolant level sensor!!!
