On Writing

Now in one stunning collection, four of Stephen King’s most well-loved horror stories: *The Mist*, *Apt Pupil*, *The Body*, and *The Sun Dog*. Each standalone story is a riveting master class in short fiction from “the reigning King of American popular literature” (Los Angeles Daily News). In *The Mist*, terror descends in the wake of a summer storm. David Drayton, his son Billy, and their neighbor Brent Norton join dozens of others and head to the local grocery store to replenish supplies and become trapped by a strange mist that has enveloped the town. As the confinement takes its toll on the group’s nerves, staying in the store may prove fatal—so, the Draytons, Brent, and a handful of other survivors attempt their escape. But what’s out there may be worse than what they left behind.\u200b *Apt Pupil* follows Todd Bowden, a top-performing student and all around “good kid” who learns his teacher, Mr. Dussander, is more than he seems. Turns out, Mr. Dussander is the target of a decades-old manhunt. He’s never been caught, and Todd doesn’t want to be the one to turn him in. Instead, Todd will face his fears and learn the real meaning of power—and the seductive lure of evil. In *The Body*, it’s 1960 in the fictional town of Castle Rock, Maine, and a boy from a neighboring town has vanished. Twelve-year-old Gordie Lachance and his three friends set out on a quest to find his body along the railroad tracks. During the course of their journey, Gordie, Chris Chambers, Teddy Duchamp, and Vern Tessio come to terms with death and the harsh truths of growing up in this iconic, unforgettable, coming-of-age story that was also adapted in the 1986 film classic *Stand by Me*. In *The Sun Dog*, Kevin Delavan receives the perfect gift for his fifteenth birthday: a Polaroid Sun 660. But no matter where Kevin Delevan aims the camera, it produces a photograph of an enormous, vicious dog. In each successive picture, the menacing creature draws nearer to the flat surface of the Polaroid film. When old Pop Merrill, the town’s sharpest trader, gets wind of this phenomenon, he envisions a way to profit from it. But the *Sun Dog*, a beast that shouldn’t exist at all, is a dangerous investment... This beautiful boxed set makes the perfect gift for seasoned King fans and newcomers alike—and features impeccably crafted, page-turning stories you’ll return to again and again.

This collection of essays grew out of the \“Reading Stephen King Conference\” held at the University of Maine in 1996. Stephen King's books have become a lightning rod for the tensions around issues of including \“mass market\” popular literature in middle and high school English classes and of who chooses what students read. King's fiction is among the most popular of \“pop\” literature, and among the most controversial. These essays spotlight the ways in which King's work intersects with the themes of the literary canon and its construction and maintenance, censorship in public schools, and the need for adolescent readers to be able to choose books in school reading programs. The essays and their authors are: (1) \“Reading Stephen King: An Ethnography of an Event\” (Brenda Miller Power); (2) \“I Want to Be Typhoid Stevie\” (Stephen King); (3) \“King and Controversy in Classrooms: A Conversation between Teachers and Students\” (Kelly Chandler and others); (4) \“Of Cornflakes, Hot Dogs, Cabbages, and King\” (Jeffrey D. Reading Stephen King

For the first time in Stephen King’s remarkable publishing history, the master storyteller presents an all-new, original tale written expressly for the television screen. They’re calling it the Storm of the Century, and it’s coming hard. The residents of Little Tall Island have seen their share of nasty Maine Nor’easters, but this one is different. Not only is it packing hurricane-force winds and up to five feet of snow, it’s bringing something worse. Something even the islanders have never seen before. Something no one wants to see. Just as the first flakes begin to fall, Martha Clarendon, one of Little Tall Island’s oldest residents, suffers an unspeakably violent death. While her blood dries, Andre Linoge, the man responsible sits calmly in Martha’s easy chair holding his cane topped with a silver wolf’s head...waiting. Linoge knows the townsfolk will come to arrest him. He will let them. For he has come to the island for one reason. And when he meets Constable Mike Anderson, his beautiful wife and child, and the rest of Little Tall’s tight-knit community, this stranger will make one simple proposition to them all: “If you give me what I want, I’ll go away.”

Storm of the Century

Stephen King [Three Novels]

Revenge loves company. Mithrid Fenn wants nothing to do with magick. Magick is a curse word, banned by the vast Arka Empire and punishable by death. Its purging has finally brought peace to war-torn Emaneska. Only a stubborn rebellion, led by the warlord Outlaw King, raids and pillages the empire’s northern fringes. To cliff-brat Mithrid, this is an age of tranquility and childhood games. That is until an illegal spellbook washes up on her shores, and she finds herself thrust into a war she never knew existed. Now hunted by daemons and mages, she is dragged inexorably north to Scalussen and its rebels fighting doggedly to preserve a memory of freedom. Mithrid holds no such ideals. She fights for revenge and nothing nobler. If spilling blood means helping the Outlaw King, then so be it. Even if it means all-out war. --- The Forever King is the first book in a new trilogy - The Scalussen Chronicles - set in the dark and nordic world of The Emaneska Series. A breathless and emotional tale of revenge that crisscrosses a vast world, The Forever King is an epic fantasy ideal for fans of Joe Abercrombie, Steven Erikson and Mark Lawrence.

The Forever King

One of the very first books to take Stephen King seriously, Landscape of Fear (originally published in 1988) reveals the source of King’s horror in the sociopolitical anxieties of the post-Vietnam, post-Watergate era. In this groundbreaking study, Tony Magistrale shows how King’s fiction transcends the escapism typical of its genre to tap into our deepest cultural fears: “that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction, that our technologies have progressed to the point at which the individual has now become expendable, and that our fundamental social institutions-school, marriage, workplace, and the church-have, beneath their veneers of respectability, evolved into perverse manifestations of narcissism, greed, and violence.” Tracing King’s moralist vision to the likes of Twain, Hawthorne, and Melville, Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature. Like his literary forbears, King gives us characters that have the capacity to make ethical choices in an imperfect, often evil world. Yet he inscribes that conflict within unmistakably modern settings. From the industrial nightmare of “Graveyard Shift” to the breakdown of the domestic sphere in The Shining, from the techno-horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie, Magistrale charts the contours of King’s fictional landscape in its first decade.

Bare Bones

This unique and timely collection examines childhood and the child character throughout Stephen King’s works, from his early novels and short stories, through film adaptations, to his most recent publications. King’s use of child characters within the framework of horror (or of horrific childhood) raises questions about adult expectations of children, childhood, the American family, child agency, and the nature of fear and terror for (or by) children. The ways in which King presents, complicates, challenges, or terrorizes children and notions of childhood provide a unique lens through which to examine American culture, including both adult and social anxieties about children and childhood across the decades of King’s works.

No one is more surprised than FBI Agent Peter Sutherland when he’s tapped to work in the White House Situation Room. When Peter was a boy, his father was suspected of selling secrets to the Russians—a breach that cost him his career, his reputation, and eventually his life. Now Peter’s job is monitoring an emergency line for a call that has not—and might never—come. Until tonight. At 1:05 A.M. the phone rings. A terrified young woman named Rose tells Peter that two people have just been murdered and that the killer might still be in the house with her. One of the victims gave her this phone number with urgent instructions: “Tell them OSPREY was right. It’s happening...” The call thrusts Peter into the heart of a conspiracy years in the making, involving a Russian mole at the highest levels of the U.S. government. Anyone in the White House could be the traitor. Anyone could be corrupted. To save the nation, Peter must take the rules into his own hands, question everything, and trust no one. The Night Agent marks the return of the classic conspiracy thriller, a Three Days of the Condor for today’s chaotic world.
